

Harshit Sharma *Full Stack Developer*

sharma78655533@gmail.com | 9877313720 | Mohali, Punjab | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

Solution-driven Full Stack Developer with 2+ years of experience delivering scalable web applications using React.js, JavaScript, and modern UI optimization techniques. Builds responsive, user-centric interfaces while actively collaborating within agile, fast-paced startup environments. Drives performance improvements by writing clean, maintainable code and creating reusable components. Consistently translates product requirements into high-quality, high-performance user experiences.

Professional Experience

Full Stack Developer - Galific Solutions

01/2025 – 09/2025

- Developed and launched the complete frontend of a LinkedIn lead generation platform within one month for testing and validation.
- Built a digital marketing analytics platform using React.js, Chart.js, and REST APIs, led a 2-member team and delivered a demo version within two months.
- Re-engineered a data integration platform to connect multiple databases, visualize insights through interactive dashboards, and added a chatbot for real-time data queries.

Software Developer - InstaPe Synergies Pvt. Ltd.

10/2024 – 12/2025

- Developed responsive React.js frontends and collaborated with backend teams to deliver seamless API integrations and efficient data flow.
- Integrated payment gateway solutions on the Instape platform, streamlining the checkout flow and improving overall user experience by 15%.

Software Developer - Pipli Technologies

07/2023 – 10/2024

- Built a scalable frontend platform enabling chartered accountants to manage and edit invoices across multiple retailers.
- Developed a retailer-facing web dashboard to manage multiple stores from a single interface and supported key client onboarding.

Associate Technical Support - Tech Mahindra

04/2021 – 06/2022

- Provided technical support for network communication systems while collaborating with customer service teams to efficiently troubleshoot and resolve client issues.

Projects

VirtualShop.com – E-commerce Web Application

React, Redux, JavaScript, HTML, CSS

[Live Demo](#) | [GitHub](#)

- Built a fully responsive e-commerce application enabling users to browse and purchase products across fashion, mobile devices, and audio accessories.
- Implemented user authentication, product listing, product details, and cart management using Redux for efficient state handling.
- Designed and delivered the complete application end-to-end within a 5-day timeline, ensuring smooth navigation and optimized user experience.

IndoorPlants.com – E-commerce Web Application

React, JavaScript, HTML, CSS, Tailwind CSS

[Live Demo](#) | [GitHub](#)

- Developed a responsive e-commerce web application for browsing and purchasing indoor plants with a clean, modern UI.
- Implemented product listing and product detail views, leveraging Tailwind CSS for animations and consistent styling.
- Delivered the complete application end-to-end within a 2-day timeline, focusing on smooth navigation and user-friendly interactions.

Education

Minor in AI - IIT Ropar

08/2024 – 10/2025

Full-Stack Web Development - Masai School, Bengaluru

08/2022 – 06/2023

B.Tech (Mechanical Engineering) - JNGEC, Sundernagar

08/2015 – 09/2019
